Een miljoen luisteraars op Spotify, maar bestaat The Velvet Sundown wel écht? ‘Dit is geen truc, het is een spiegel’

Kunnen we echte muzikanten nog onderscheiden van artificiële intelligentie? De vraag dringt zich op nu AI-band The Velvet Sundown meer dan een miljoen luisteraars verzamelt op Spotify.

AI-actrice Tilly Norwood zet Hollywood op stelten: vervangt technologie binnenkort echte acteurs?

Ze kijkt, spreekt en lacht als een echte vrouw, maar toch is ze het niet. Haar naam is Tilly Norwood, de eerste 'actrice' die volledig door artificiële intelligentie gegenereerd is. Ze veroorzaakt meteen heftige reacties in Hollywood, waar 'echte' acteurs en actrices zich zorgen maken om hun toekomst. AI-specialist Chris Umé is voorlopig minder bezorgd. "AI-acteurs hebben geen emoties."

Virtual humans are gradually [scaling](#) the [uncanny valley](#), and like artificial intelligence, they're coming for our jobs. A case in point is [Imma](#), a digital Instagram model who has garnered over 50,000 followers thanks to her (its?) trendy, street-style selfies and photos. Imma just entered uncharted territory for 3D rendered humans, appearing in a makeup spread with two real models for Kate cosmetics in *Vice's* [i-D site](#) in Japan.

Imma is the creation of ModelingCafe, a CGI firm that has worked on *Kingsglaive Final Fantasy XV*, *Shin Godzilla*, *The Legend of Zelda: Breath of the Wild* and this [insanely good tourism video](#) for the Kyushu region. It created Imma with astounding attention to detail, including dark roots on her pink dyed hair.

The end result is a 3D model who's more realistic than [other virtual Instagram personalities](#). That's in part because the company put female modelers in
